

# How to use your Map & Compass

## Follow the 1-2-3 system

**Step 1 - Point the baseplate to your destination** - Place compass on map with edge along desired line of travel with the Direction of Travel arrow pointing towards your destination.

**Step 2 – Set the Compass Heading**  
Rotate compass dial until "N" on the ring point towards magnetic North on the map.

**Step 3 - Follow your Heading**  
With the red (north) end of the needle pointing towards "N" on the compass graduation ring, the Direction of Travel arrow points to your destination.
